DEATH AND DISASTER.

One of the Worst Storms in the History of Cincinnati.

The Property Loss Will Aggregate Over \$1,000,000—Water at Pearl Street and Eggleston Avenue Was Five Feet Deep.

Cincinnati, May 21.—This city was the center of a terrific whirlwind, accompanied with a furious downpour of rain Tuesday forenoon. The wind blew from all points at the rate of 60 miles an hour, and the deluge of water lasted for 30 minutes, in which time about two inches of water fell. Thousands of cellars in business houses were flooded. In the wholesale district it is estimated the loss was \$1,000,000.

The storm was stated by the expert observers to be the most severe of its kind ever experienced in Cincinnati.

The water in the vicinity of Pearl street and Eggleston avenue was fully five feet deep in a depression.

George Becker, 32, widower, while driving along Queen City avenue was struck by a telegraph pole and knocked down from his wagon. He was pinned under the pole close to the ground, and drowned by the water that washed down the avenue.

Ferdinand Rapp, peddler, was caught in a rush of water into the cellar at 2133 Main street. Being crippled, he was unable to make his way out and was drowned.

Mrs. George Fleischer and the one-month-old child of Mrs. Henry Willen were drowned at Baker and Lewis streets, Covington.

The swollen waters of Willow Run undermined the foundations and the building fell. Mrs. Willen escaped with one of her children, and it is supposed Mrs. Fleischer was attempting to rescue the baby and lost her life.

Clem Davier, teamster for the Ramsey Cone Co., working on the C. & N. & C. extension to Erlanger, Ky., was drowned Tuesday afternoon with his two horses on the Lexington pike, about a mile from Covington. His cart was overturned by a rush of water from a swollen stream and he was caught under it.

A boss carpenter named Belleville was working on a building on the Rapid Run pike, near St. Joseph's cemetery when the storm came up. The partly finished building was blown down and Belleville was killed. Others at work on the structure were hurt.

A man employed by the Mitchell factory, at the corner of Harrison and Spring Grove avenues, was last seen floating down that thoroughfare clinging to a ladder. It is not known whether or not he was drowned.

The Queen City bathing beach, on the Dayton sandbar, at Bellevue, Ky., on the Ohio river, was washed away. The buildings were carried into the river. The damage is over \$10,000.

A stream of water five feet deep, carrying beer kegs, boxes and barrels, rushed down Gilbert avenue. All over the city electric wires were tangled and broken. Traffic was for a time stopped at Fountain square.

While watching the storm from the window of her home, at York and Seventh streets, Newport, Ky., Mrs. Keeney, wife of Dr. C. W. Keeney, was struck by lightning. She was rendered unconscious, but may survive. Half of Newport was for a time under from three to four feet of water.

Water was four feet deep in the old Whitewater canal at Sixth street, this city, now used for railroad purposes, and passenger traffic on the roads using it was for some hours stopped. A passenger train at noon attempted to go through, but was compelled to return to the depot.

WAREHOUSE BURNED.

A \$100,000 Fire at Philadelphia—A Woman Suffocated.

Philadelphia, May 21.—A large three-story brick building at Broad and Vine streets, occupied jointly by Marks Bros., in department store, proprietors, as a warehouse, and the Pennsylvania Electric Vehicle Co., was destroyed by fire Tuesday. Mrs. Sarah A. Meyers, 74 years old, who resides in a small street in the rear of the warehouse, and Ross Rauch, a fireman, were overcome by smoke. The loss is estimated at \$100,000, Marks Bros. sustaining the bulk of the damage. The origin is unknown.

Went Through a Trestle.

Ardmore, I. T., May 21.—A construction train on the Choctaw, Oklahoma & Gulf railway plunged through a high trestle 12 miles east of Ardmore Tuesday. Four men were killed and 21 injured, seven of the latter fatally. Among those believed to be fatally hurt is A. M. Oliphant, a prominent attorney of Tishomingo, who was riding home on the work train. The other dead and injured are all members of the construction gang or the train crew.

Will Accept Peabody's Offer.

Augusta, Ga., May 21.—The county school superintendents of Georgia, in convention Tuesday, decided to accept George Foster Peabody's offer of a donation of one dollar for every dollar subscribed by citizens for libraries in the rural schools of the state.

Killed by a Robber.

Kansas City, Mo., May 21.—Joseph Barrone, an Italian saloonkeeper, aged 31 years, was shot and killed in his saloon in this city by a robber, with whom he had a desperate encounter early Tuesday.

HUNDREDS OF REFUGEES.

The People Are Fleeing From Fort De France, Martinique.

Fort De France, May 21.—Tuesday morning at 5:30 a thick, heavy cloud, lit up by flashes of lightning, and the rising sun, rose from Mont Pelee. The people of Fort De France at once became panic-stricken, and in scant attire rushed excitedly through the streets of the town. Stones from the volcano as big as hazelnuts fell in the streets. Many of the inhabitants hurriedly embarked on the vessels in the harbor, and it was with difficulty that they were eventually reassured. At 7 o'clock, however, the excitement was over and the people became calm. The phenomenon of Tuesday morning was similar to the eruption of Thursday, May 8, but not so severe. Gov. L'Huere will leave here on the French cruiser Suchet to inform himself of the situation at St. Pierre.

A tidal wave has destroyed a portion of the village of Le Carbet.

It was learned later that a whirlwind of fire descended on the village of Le Carbet and fears are entertained for the lives of the troops who were supposed to be in that village.

Point Au Pierre, Island of Gaudaloupe, May 22.—The steamer Horten has arrived here with 200 refugees from Fort De France, Martinique, on board. The French steamer Salvador also came in, having on board a thousand people, who were unable to remain at Fort De France. Everybody who can do so is leaving Fort De France. The refugees are in a pitiable condition. They all report that on the morning of May 20 Mont Pelee vomited a thick cloud of black smoke and threw hot mud and stones over the greater part of the island, while a heavy pall of smoke overhung Fort De France. The eruption was followed by flashes of incandescent light, and the panic-stricken people fled to the shore. It was reported at Fort De France that some people have been killed at Carbet, on the west coast, while Base Pointe, on the northeast coast, is said to have been completely destroyed. The refugees report further that all the vessels at Fort De France are taking people away from the island.

THE PACKERS COMBINE.

A Temporary Injunction Granted Against Them.

Chicago, May 21.—The temporary injunction asked for by the government against the members of the so-called packers' combine is now in force. It was issued Tuesday evening by Judge Peter S. Grosscup, after the close of the arguments in the United States court room. The order gives the relief prayed for in the bill filed by District Attorney Bethea on May 10. It is so wide in its scope that if the packers or their agents continue with their alleged union arrangements they will be taken into court on contempt proceedings and the burden of proof will be on them to show that they have not violated the law in any particular.

Little opposition was raised against the government's petition. Attorney Bohms Miller, who was the sole representative of the packers present, pointed out some objectionable clause in an order drafted by Mr. Bethea. These concerned the alleged agreements for credit, blacklisting and cartage. Judge Grosscup thought some of these minor clauses had been made too prominent and he himself drew a form of order that pleased both sides. At the same time the order was entered numerous affidavits and other exhibits were filed for the government.

WALDECK-ROUSSEAU.

The French Premier Will Resign His Office June 1.

Paris, May 21.—The semi-official announcement that M. Waldeck-Rousseau would resign as soon as parliament reassembles, June 1, while not entirely unexpected, causes much comment in political circles here, and people are wondering why the premier waited until after President Loubet's departure for Russia to make public his decision.

Some people think that President Loubet has been putting pressure upon M. Waldeck-Rousseau to prevent his abandoning his post, and that the latter has taken advantage of the president's absence to take this step now, thus rendering his decision irrevocable.

PRESIDENT LOUBET.

His Reception at Peterhof, Russia, Was Marked By Warmth.

Peterhof, Russia, May 21.—The imperial yacht Alexandra arrived here at noon from Cronstadt. President Loubet led the way ashore and shook hands with the assembled grand dukes and officials. The president and czar then entered a carriage, were driven to the railroad station and proceeded on the imperial train to Sarsko-Selo. The president's reception everywhere was marked by warmth.

Race Horse Seriously Injured.

St. Louis, May 21.—Wakita, the favorite in the feature event at the Fair grounds Tuesday stumbled and fell into the fence while going up the back stretch, receiving injuries which may result in her death. Her nose was broken and she was severely injured.

New Wagon Record.

Memphis, Tenn., May 21.—C. K. C. Billings, of Chicago, Tuesday drove Hontascrook in a wagon race a mile in 2:11½, defeating Mabel Onward. This is a new wagon record for the month of May.

THE CUBAN REPUBLIC.

President Palma Assumes Control of the New Nation.

Gen. Wood, His Staff and American Troops Embarked and the United States Ships Steamed Out of Havana Harbor.

Havana, May 21.—Cuba Libre is a complete actuality. The transfer of the control of the island from the United States to the Cuban republic took place at noon Tuesday.

Senor Tomas Estrada Palma attached his signature to a document as president of the Cuban republic after an exchange of congratulations, and the veteran Gen. Gomez ascended to the roof of the palace, where he was accorded a great reception. Gen. Wood personally lowered the American colors, which were saluted and with his own hands hoisted the Cuban flag, as an act of the United States, Gomez assisting.

Gen. Wood and his staff and the American troops embarked immediately after the hoisting of the Cuban flag, and the American ships steamed out of the harbor. At the time the transfer took place in Havana, Gen. Whiteside, at Santiago, turned over his authority to his Cuban successor and sailed away with the American cavalry, which has been in garrison there.

During the early morning many troops of school children marched into the Plaza de Armas, ranged themselves before the palace and sang an American anthem.

At 10 o'clock a delegation from the Central Veterans club presented Gen. Wood with a handsome machete, having a beautifully engraved hilt. It has the Cuban coat of arms and a single gold star on one side and the general's initials on the other in gold.

Washington, May 21.—President Roosevelt Tuesday afternoon received the following cablegram from the president of the Cuban republic:

Havana, May 20.—Theodore Roosevelt, President, Washington: The government of the island having been just transferred, I, as chief magistrate of the republic, faithfully interpreting the sentiments of the whole people of Cuba, have the honor to send you and the American people testimony of profound gratitude and the assurances of enduring friendship with wishes and prayers to the Almighty for the welfare and prosperity of the United States. (Signed) T. Estrada Palma.

President Roosevelt has also received the following cablegram from President Loubet, dated at Kronstadt, Tuesday: "At the time when the Cuban republic is proclaimed under the mighty aegis of the United States of America, I make it my duty to offer to your excellency my very sincere felicitations and to send you the wishes that I form for the prosperity of the young republic. (Signed) Emil Loubet."

The following dispatch was received at the white house Tuesday night from Gen. Wood at Havana: To the president of the United States, Washington D. C.: I have the honor to report to you that within compliance with instructions received, I have today at 12 o'clock sharp transferred to the president and congress of Cuba the government and control of the island, to be exercised by them under the constitution of Cuba. Documents sent to me were read to me, and Mr. Palma, in accepting the responsibilities on behalf of the island, expressed himself in kind and endearing words and thanks, thanked the republic of the United States and its officials for all that has been done for Cuba and for the fulfillment of promises made. The ceremony was most impressive, and I embark on the Brooklyn with my staff for the United States. (Signed) Wood."

THE PRESIDENT IN NEW YORK.

Delivers An Address to the Members of the Presbyterian Board.

New York, May 21.—President Roosevelt, accompanied by Secretary Cortelyou and Dr. J. F. Urie, of the navy, arrived at Jersey City at 6:08 o'clock Tuesday evening. The party remained aboard the train until 7:30, when the president crossed the river on the ferry boat to Thirty-third street and was driven to Carnegie hall.

While the train was in the yards at Philadelphia the president shook hands with a number of engineers, firemen and train hands, who were about the yard. One of these was James Bottomly, a fireman, whose brother-in-law, James McBlaine, was one of the rough riders, who made the charge up San Juan hill.

The trip to Jersey City was without incident. While the president was at dinner in the dining car at Jersey City a committee of two, composed of A. Noel Blakeman and Robert Curtis Ogden, arrived later and accompanied the president to Carnegie hall, where the members of the Presbyterian board and distinguished audience had gathered to hear his address.

Immersion Will Continue.

Springfield, Mo., May 21.—The Cumberland Presbyterian general assembly Tuesday adopted by a large majority a report on overtures which rejected memorials to rid the confession of faith of its recognition of immersion as one mode of baptism.

To Tap a Rich Field.

Roanoke, Va., May 21.—The Catawba Valley Railway and Mineral Co. will begin the construction of a railway on July 1 to tap a region that abounds in glass sand, anthracite coal, iron and marble.

INITIAL RECEPTION.

The Representatives of the French Republic Arrive.

Annapolis, Md., May 22.—The initial reception of the representatives of the French republic, who are here to participate in the ceremonies upon the unveiling of the Rochambeau monument in Washington next Friday, took place on board the French battleship Gaulois in Annapolis roads at 2 o'clock Wednesday. The weather was ideal.

The commissioners representing the United States, namely, Col. Theodore F. Bingham, superintendent of public grounds in Washington; Assistant Secretary of State H. H. D. Peirce, and Commander B. R. Hodges, reached Annapolis from Washington on the 9:15 train and at once proceeded in carriages to the wharf, where they embarked on the dispatch boat Dolphin, commanded by Capt. Albert Gleaves. The commissioners were accompanied by the several members of the French embassy at Washington.

At 11:30 the Dolphin got under way, steaming slowly over the shallow channel to meet the incoming Gaulois. The Gaulois and the American escort, the Olympia, Alabama and Kearsarge, under the command of Adm. Higginson, were anchored off Greenberry Point light house, five miles below Annapolis.

The Gaulois anchored just as the Dolphin appeared upon the scene, flitting her jack at the bow in token thereof. Some 200 yards on the bow of the French battleship Adm. Higginson's flagship, the Olympia, came to anchor, while the Alabama and Kearsarge took positions below the Olympia at points equidistant from each other. The Indiana, which lay between Annapolis and Greenberry Points light house, was the first to give a sign of welcome to the French warship. This was in accordance with naval etiquette and consisting of nothing more than hoisting a signal. The Alabama responded with a signal and then came the boom of cannon from the Gaulois, the traditional 21 guns being fired. This was followed by two patriotic airs from the band on board the Gaulois, one of these being the Marseillaise. Immediately thereafter the commissioners proceeded in a launch to the Gaulois, and as they approached the French battleship a salute of 15 guns was fired.

BIG COAL COMBINE.

All the Indiana Interests Are to Be Consolidated.

Chicago, May 22.—Consolidation of all the coal interests in Indiana, covering 117 mines, of an annual output of 6,000,000 tons a year, and of a value of \$15,000,000, in one big corporation, with headquarters in this city, will be effected within a month.

John S. Bays of Sullivan, Ind., who is engineering the project, has been here two days in constant consultation with Chicago companies with mine interests in Indiana.

The plan upon which the corporation is being organized, it is understood, is that every mine in the state is to be transferred to Mr. Bays, who represents large capitalists. The 117 mines are owned by 75 companies. The interests of many of the smaller concerns will be bought outright, but in the case of the larger companies the members will be taken into the corporation as members of its board of directors.

The effect of the consolidation, it is understood by coal men of this city, will be an increase in the prices of every quality of coal mined in Indiana.

JEFFRIES-FITZSIMMONS.

The San Francisco Athletic Club Gets the Fight.

San Francisco, May 22.—The San Francisco Athletic club of San Francisco, gets the Jeffries-Fitzsimmons fight. The terms are 70 per cent. of the gross receipts. The date of the fight is to be mutually agreed upon later by the fighters and the club. The pugilists decided upon Eddie Graney, a local man, to act as referee. The articles of agreement will probably be signed on Friday.

Jeffries and Fitzsimmons each posted a forfeit of \$2,500. The winner is to get 60 per cent. and the loser 40 per cent. of the fighters' share of the receipts.

Cattleman's Severe Loss.

Helena, Mont., May 22.—The cold, soaking rain that fell in this section of the state Tuesday and Tuesday night was the cause of loss to cattleman estimated at \$20,000. A cattleman who has just returned from a visit to his herd says that not less than 10,000 head of yearlings lined the roads and plains within a distance of six miles from Billings, in northeast.

Birth of the New Republic.

Mexico City, May 22.—The Cubans here went in a body to congratulate the American embassy on the birth of the new Cuban republic. They also called on Minister of Foreign Relations Mariscal to thank him for sympathy shown the Cuban republic by Mexico.

Sympathetic Strike.

Portland, Ore., May 22.—At noon Wednesday building operations in this city were suspended, about 2,500 men laying down their tools. The general strike of the building trades is in sympathy with the planing mill employees, who demand a nine-hour day.

The Frederick the Great Statue.

Berlin, May 22.—Prof. Uphues, in the statue of Frederick the Great, which he will make for presentation to the United States, intends to represent the youthful Frederick before he was broken by the seven-year war.

ARE YOU DEAF? ANY HEAD NOISES? ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY. F. A. WERMAN, OF BALTIMORE, MARYLAND.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely in the affected ear would be lost for ever. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost for ever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

HOUSE WE USED TO LIVE IN.

The house we used to live in looks at us so weirdly as we go driving by. The wind that makes its near tree murmurings swiftly after with entrancing sigh. Come back! come back! we hear it low. The grass-choked gate, the earth-entrained door, enter in your childhood's home once more.

Ah, let us make merry with light speech of newer days and push the past aside. Close to that door the baby used to reach the knob and play with it—before he died; He used to sleep on the broad window-sill, A sunbeam in his curls—no, not that hill—This level road. Drive fast—oh, faster still.

How small it was! Before the birds are grown. They lie so warmly in one tiny nest; But all the world is theirs when they have flown.

And foreign roofs replace the mother's breast. Ah, well—God careth. See, before us now The ampler home beneath a lofty bough. Lift up the saddened heart and clear the brow.

For in that empty nest beyond the hill Are blessed shadows at immortal ease; The sun-crowned baby on the window-sill, The happy children underneath the trees. Old house, look not so piteous. Thou art of larger lives the very sweetest part; The first love of the unforgetting heart. —Ethelwyn Wetherald, in Youth's Companion.

My Strangest Case

CHAPTER VIII.—CONTINUED.

"This is a somewhat remarkable case," he said. "I will mention no names, but doubtless you can read between the lines. There was a man who murdered his wife in order that he might marry another woman. The thought which he gave to it, and the clever manner in which he laid his plans, not only for the murder but also for the disposal of the body, marked him as a criminal in the possession of a singularly brilliant intellect. He gave no hint to anybody, but left the country without leaving the faintest clue concerning his destination behind him. I was called in to talk over the case, but after some consideration could make nothing of it. I have no objection to admitting that I was completely baffled. Now it so happened that I discovered that the man's mother was of Irish extraction. He, believing that he would be safe on that island, engaged a passage on board a steamer from Havre to Belfast. She was to pick up at Southampton, Plymouth and Bristol, en route. My man, who, by the way, was a very presentable person, and could be distinctly sociable when he pleased, endeavored to make himself agreeable to the passengers on board. On the first evening out of port, the conversation turned upon the value of diamonds, and one of the ladies on board produced some costly stones she happened to have in her possession. The murderer, who, you must understand, was quite safe, was unhappily eaten up with vanity. He could not forego the boast that he was the possessor of a magnificent ring, which had been given him by ex-Emperor Napoleon III. Needless to say this information excited considerable interest, and he was asked to produce it for the general edification.

"He declared that it was too late to do so that evening, but said that he would do so on the morrow, or, at any rate, before he left the vessel. In the excitement of reaching Southampton, the matter was for the moment forgotten, but on the day that they arrived in Plymouth one of the lady passengers reminded him of his promise. This was followed by another application. Thus surrounded, the unhappy man found himself in the unpleasant position of being discovered in the perpetration of an untruth, or of being compelled to produce some feasible tale in order to account for his not being able to produce the ring. It was at this juncture that he made his great mistake. Anxious doubtless to attract attention, he returned from his cabin with the astounding declaration that the lock had been forced, and the famous ring stolen from his trunk in which it had lain concealed. He certainly ached his part well, but he did not realize to what consequence it would lead. The matter was reported to the police, and a search was made through the vessel. The passengers were naturally indignant at such treatment, and for the rest of the voyage the man found himself taking what you English call 'the cold shoulder.' He reached Belfast, made his way into the country, and presently settled down. Later on, when the pursuit had died down, it was his intention to ship for America, where he was to be joined by the woman, to obtain whom he had in the first place committed the crime. Now observe the result. Photographs of the missing man and of the murdered woman were circulated all through France, while not a few were sent to England. One of these pictures reached Plymouth, where it was shown to the officer who had investigated the case on the boat on its way to Ireland. He immediately recognized the man who had made the charge against his fellow-passengers. After that it was easy to trace him to Belfast and his hiding-place on land. Extradition was of course granted, and he left the place. Had he not imagined that in his safety he could indulge his vanities, I confidently believe I should never have found him. When you come to think

of it, it is hard to come to the guillotine for a diamond that never existed, is it not?"

I agreed with him, and then suggested that we should amuse ourselves by endeavoring to find out how the dinner at the Cafe des Ambassadeurs was progressing.

"They will proceed to a theater afterwards, you may be sure," my companion said. "In that case if you like we could catch a glimpse of them as they come out. What do you say?"

I answered that I had not the least objection.

"One night does not make much difference. To-morrow morning I shall make a point of meeting him face to face."

"Should you require any assistance then, I shall be most pleased to give it to you," my companion replied.

I thanked him for his offer, and then we left the restaurant together, hailed a cab, and drove to his flat. It consisted of four rooms situated at the top of a lofty block of buildings near the river. From his windows he could look out over Paris, and he was wont to declare that the view he received in exchange was the most beautiful in the world. Fine as it was, I was secretly so enthusiastic in my praise.

Among other things they were remarkable for the simplicity of their furniture, and also for the fact that in the sitting-room there was nothing to reveal the occupation of their owner. His clever old servant, Susanne, of whom I was told said she would, did she but choose, make as clever a detective as her master (she had served him for more than 40 years), brought us coffee so quickly that it would almost seem as if she had been aware that we should reach the house at that particular moment.

"We have plenty of time to spare," he said. "In the meantime it will be necessary for us to find out what they are doing. If you will wait I will dispatch a messenger, who will procure us the information."

He wrote something on a half-sheet of note-paper, rang the bell, and handed it to Susanne.

"Give that to Leon," he said, "and tell him to be off with it at once."

The woman disappeared, and when she had gone we resumed our conversation. Had he not had the good fortune to be such a great success in his own profession, what an admirable actor the man would have made! His power of facial contortion was extraordinary, and I believe that on demand he could have imitated almost any face that struck his fancy.

"And now with regard to our little excursion," he said. "What would you like to be? As you are aware, I can offer you a varied selection. Will you be a workman, a peddler, an elderly gentleman from the provinces, or a street beggar?"

"I think the elderly gentleman from the provinces would suit me best," I answered, "while it will not necessitate a change of dress."

"Very good, then, so it shall be," he replied. "We'll be a couple of elderly gentlemen in Paris for the

first time. Let me conduct you to my dressing-room, where you will find all that is necessary for your make-up."

He thereupon showed me to a room leading out of that in which we had hitherto been sitting. It was very small, and lighted by means of a skylight. Indeed, it was that very skylight, so he always declared, that induced him to take the flat.

"If this room looked out over the back, or front, it would have been necessary for me either to have curtains, which I abominate, or to run the risk of being observed, which would have been far worse," he remarked to me once. "Needless to say there are times when I find it most necessary that my preparations should not be suspected."

Taken altogether, it was a room that had a strange fascination for me. I had been in it many times before, but was always able to discover something new in it. It was a conglomeration of cupboards and shelves. A large variety of costumes ranging from soldier's uniforms to beggar's rags. There were wigs of all sorts and descriptions on blocks, pads of every possible order and for every part of the body, humps for hunchbacks, wooden legs, boots ranging from the patent foot-covering of the dandy to the toadless foot-covering of the beggar. There were hats in abundance, from the spotless silk to the most miserable head coverings, some of which looked as if they had been picked up from the rubbish-heap. There were peddlers' trays fit-

ted with all and every sort of ware, a faro-table, a placard setting forth the fact that the renowned Prof. Somebody or Other was a most remarkable phrenologist and worthy of a visit. In fact there was no saying what there was not there. Everything that was calculated to be useful to him in his profession was to be found in the room.

For my own part I am not fond of disguises. Indeed on only two or three occasions, during the whole course of my professional career, have I found it necessary to conceal my identity. But to this wily little Frenchman disguise was, as often as not, a common occurrence.

Half an hour later, two respectable elderly gentlemen, looking more like professors from some eminent Lycee than detectives, left the house and proceeded in the direction of the Folly theater. The performance was almost at an end when we reached it, and we mingled with the crowd who had assembled to watch the audience come out. The inquiries we had made proved to be correct, and it was not very long before I saw the man I wanted emerge, accompanied by a female, who could be no other than Mme. Beaumarais. Hayle was in immaculate evening dress, and, as I could not but admit, presented a handsome figure to the world. A neat little brougham drew up beside the pavement in its turn, and into this they stepped. Then the door was closed upon them, and the carriage drove away.

"That's my man," I said to my companion, as we watched it pass out of sight. "To-morrow morning I shall pay him a little visit. I think you were quite right in what you said about the money. That woman must have made a fairly big hole in it already."

"You may be quite sure of that," he answered. "When she has finished with him there will not be much left for anybody else."

"And now to get these things off and then home to bed. To-morrow will in all probability prove an exciting day."

I accompanied him to his room and removed the disguise which had enabled me to see Hayle without his being aware of my identity, and then, bidding my friend good night, returned to my abode. Before I went to bed, however, I sat down and wrote a report of my doings for Miss Kitwater. Little as I had to tell, the writing of this letter gave me considerable pleasure. I could imagine it coming like a breath from another world to that quiet house at Bishopstowe. I pictured the girl's face as she read it, and the strained attention of the two men, who, needless to say, would hang on every word. When I had finished it I went to bed, to dream that Gideon Hayle and I were swimming a race in the Seine for five gigantic rubies which were to be presented to the winner by Miss Kitwater.

Next morning I arose early, went for a stroll along the boulevards, and returned to breakfast at eight o'clock. In the matter of my breakfasts in Paris, I am essentially English. I must begin the day with a good meal, or I am fit for nothing. On this particular occasion I sat down on the best terms with myself and the world in general. I made an excellent meal, did the best I could with the morning paper, but my French is certainly not above reproach, and then wondered when I should set out to interview the man whose flight from England had proved the reason of my visiting Paris. Then the door opened and the concierge entered with the words: "A gentleman to see monsieur!" Next moment, to my overwhelming surprise, no less a person than Gideon Hayle entered the room.

CHAPTER IX.

At the moment that I saw Hayle enter my room, you might, as the saying goes, have knocked me down with a feather. Of all that could possibly have happened, this was surely the most unexpected! The man had endeavored to get me out of his way in London, he had played all sorts of tricks upon me in order to put me off the scent, he had bolted from England because he knew I was searching for him, yet here he was deliberately seeking me out, and of his own free will putting his head into the lion's mouth. It was as astonishing as it was inexplicable.

"Good morning, Mr. Fairfax," he said, bowing most politely to me as he spoke. "I hope you will forgive this early call. I only discovered your address an hour ago, and, as I did not wish to run the risk of losing you, I came on at once."

"You appeared to be fairly desirous of doing so last week," I said. "What has occurred to make you change your mind so suddenly?"

"A variety of circumstances have conspired to bring such a result about," he answered. "I have been thinking the matter over, and not being able to determine the benefit of this hole-and-corner sort of game, I have made up my mind to settle it once and for all."

"I am glad you have come to that way of thinking," I said. "It will save us both an infinity of trouble. You understand, of course, that I represent Messrs. Kitwater and Codd."

"I am well aware of it," he replied, "and in common fairness to myself, I can only say that I am sorry to hear it."

"May I ask why you are sorry?"

"Because you have the honor to represent the biggest pair of scoundrels unhung," he answered. "And in saying this I pledge you my word that I am by no means overstepping the mark. I have known them both for a great many years, and can, therefore, speak from experience."

Before going further with him I was desirous of convincing myself upon the point.

"You knew them, then, when they were missionaries in China, I suppose?"

"That's the first time I have ever heard what they were," he replied. "Kitwater a missionary! You must forgive my laughing, but the idea is too ludicrous. I'll admit he's done a considerable amount of converting, but it has been converting other people's money into his own pockets."

He laughed at his own bad joke, and almost instantly grew serious once more. He was quite at his ease, and, though he must have known that I was familiar with the story, or supposed story, of his villainy, seemed in no way ashamed.

"Now, Mr. Fairfax," he went on, "I know that you are surprised to see me this morning, but I don't think you will be when we have had a little talk together. First and foremost, you have been told the story of the stones I possess?"

"I have heard Mr. Kitwater's version of it," I answered, cautiously. "I know that you robbed my clients of them and then disappeared!"

"I did not rob them of the stones," he said, not in the least offended by the bluntness of my speech. "It is plain that you do not know how we obtained them. Perhaps it's as well that you should not, for there's more behind, and you'd go and get them. No! We obtained them honestly enough at a certain place, and I was appointed to carry them. For this reason I secured them in a belt about my waist. That night the Chinese came down upon us and made us prisoners. They murdered our two native servants, blinded Kitwater, and cut out Codd's tongue. I alone managed to effect my escape. Leaving my two companions for dead, I managed to get away into the jungle. Good heavens! man, you can't imagine what I suffered after that."

I looked at him and saw that his face had grown pale at the mere recollection of his experiences.

[To Be Continued.]

A HAREM-SCARUM TIME.

All-Sufficient Experience of a German Duchess in a Family Circle of Tunisian Ladies.

Ladies contemplating a visit to the Barbary States would do well to inform themselves by reading a recent book, "Tunisia and the Modern Barbary Pirates," by Herbert Vivian, M. A., to which Mrs. Vivian has contributed a chapter describing those secluded parts of oriental dwellings which no masculine visitor is permitted to enter, and the etiquette prevailing there. In a harem, as in occidental centers of femininity, the costume of a lady visitor is a source of interest and curiosity. When Mrs. Vivian paid calls the whole family would gather round and pluck at her things, but on the whole she came off very well, the Tunisian ladies contenting themselves with poking and patting her gently and discussing her raiment—cost, cut and color—with each other.

So exalted a personage as the duchess of Saxe-Coburg-Gotha was less fortunate. The gentleman who arranged for the duchess's visit to the harem of an old Arabian friend said to the man:

"The lady who is coming to see you is the daughter of the emperor of all the Russias, and has married the son of the English queen."

The old man was too polite to show incredulity; but when he saw a little lady dressed in ordinary English clothes, he was quite convinced that he had been hoaxed.

"A great princess," he said to himself, "could not possibly go about except attended by a large suite and attired in brocade or cloth of gold."

The ladies of his household were apparently of the same opinion, for the duchess came out of the house terribly disheveled; they had pulled her hair about, taken the combs out to look at them; tugged at her dress to see how strong the material was, and even attempted to undo it to see what she wore beneath.

The duchess was immensely amused. "But," she declared, "now that I have seen one harem, I am quite satisfied, and have no desire ever to visit another."

When Endurance Rebelled.

An Irish friend insisted that a Scotchman should stay at his house instead of a hotel, and kept him there for a month, playing the host in detail, even to treating him to all the places of amusement, paying all the cab fares and the rest. When the visitor was returning to Dublin the Irishman saw him down to the steamer, and they went together to have a last cigar.

"Now, look here," said the man from Duneidin, "I'll hae nae mair o' this. Here ye've been keepin' me at your house for a month, an' payin' for a' the amusements, and cabs and so on—I tell you I'll stan' nae mair o' it! We'll just hae a toss for this one!"—Scotsman.

Too Bad, Too Bad.

"When I came of age," said Mr. Softleigh, "I promised mother that I'd never marry until I found the right girl."

"Indeed!" exclaimed Miss Sharpe.

"Yes, and—er—you're the right girl."

"That's too bad, for you're the wrong man!"—Tit-Bits.

Willie Explained.

Mamma—Willie! What's the baby crying for?

Willie—Oh! he's ungrateful that's what he is.

"Ungrateful?"

"Yes'm. I jest showed him how to eat his cake and he don't 'preciate it!"—Philadelphia Press.

Kentucky Federation of Womens Clubs.

Club women throughout the state are looking forward with pleasure to the eighth annual meeting of the Kentucky Federation of Women's Clubs, which will convene in Paris, Tuesday evening, June 10, and will continue in session for three days.

Louisville women are particularly interested in the meeting this year, as they will take an active part in the program, and because the presiding officer, Mrs. Geo. C. Avery, of that city, will be in the chair for the first time since the honor of president of the Kentucky Federation of Women's Clubs was conferred upon her.

For years the Federation's chief interest has been the welfare of the people of the Kentucky mountains, and at the June meeting Miss Catherine Pettitt, of Lexington, will, as usual, tell of the social settlement work which she and her associates have been doing in the mountains under the auspices of the Federation.

Forestry has claimed much consideration from the club women of the state for the past two years, and this year a whole evening will be devoted to the subject, which will be in the capable hands of Mrs. Mason Maury, of Louisville.

Traveling libraries, economics, art, education, tree planting and village improvements are other subjects in which the Federation is interested, and on which special committees will make reports.

The principal business brought before this body of women will be the revision of the constitution and the consideration of the financial standing of the Federation. It is the desire to place the Federation on a firmer financial basis and some time will be devoted to this topic.

There will be six sessions during the convention which will be held at the First Christian church. The last session on Thursday afternoon, June 12, will be followed by a drive, and that evening from 8 to 11 o'clock the club women of Paris will give a reception to the visiting delegates.

During their stay in this city, the visitors will board at the Bourbon College, and those who expect to attend should communicate with Mrs. M. A. Thompson, Bourbon College, Paris. All who cannot be accommodated at the college will be provided for by the local committee in this city.

Credentialed cards must be presented to the Credential Committee the afternoon and evening of Tuesday, June 10, at the Bourbon College, and Wednesday morning, from 8 to 9 o'clock, at the Christian church.

The officers are: President, Mrs. Geo. C. Avery, Louisville; First Vice President, Mrs. E. L. Motley, Bowling Green; Second Vice President, Mrs. A. M. Harrison, Lexington; Corresponding Secretary, Mrs. Pierce Butler, Louisville; Recording Secretary, Mrs. Thos. B. Rodman, Frankfort; Treasurer, Mrs. George Alfred Curry, Harrodsburg; Auditor, Miss Elizabeth Grimes, Paris; Federation Secretary, Miss Jeanie D. McKee, Covington.

A. T. FORSYTH has received the following letter and asks its publication: "Wrath is a wrinkled hag, hell-born, Her heart is hate, her soul is scorn. Blinded with blood she cannot see To do a deed of charity."

Floral and Memorial exercises at Camp Chase Confederate Cemetery will take place Saturday 2 p. m., June 14th, 1902. At same time will take place the dedication of the fine stone arch and unveiling of the bronze statue of a Confederate private soldier, 6 feet 4 inches tall, placed on top of the arch, facing southward towards the homes of the dead heroes.

The exercises are expected to be in advance of any services of this character that has ever occurred.

It is hoped that there will be a liberal donation of flowers on this occasion, that may surpass anything heretofore. If you send any, have them shipped so they will reach here on June 13th, the day before the service, and please pay the expressage on them, as other expenses are quite heavy.

All money donations will be acknowledged at once and those of flowers immediately after the services. Any money donations, please mention whether for flowers or for the expenses for the day and grounds. Reports will be made to Adjutant General Moorman at New Orleans and the Confederate Veterans at Nashville.

Come to the services if you can, and bring as many with you as possible. Have your newspapers make mention of the services to be had on June 14, and give it as much publicity to your camps as possible.

This is the first Memorial ever built by an ex-Federal soldier to Confederates. The program is not yet completed, but Governor Nash of this State will make an address, and it is hoped that General Gordon will be present.

Hope you and yours will attend, and show the coming generations that we are friends in peace.

Very respectfully

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

FRED M'DERMOTT,

One of Our Enterprising Grocery Merchants Goes to Wall—Leaves For Parts Unknown.

Mr. Fred McDermott, a young man well-known in the community, has left the city, and has written a letter dated at Lexington, and addressed to the Power Grocery Company, in which he stated he had decided to leave Paris and that his stock of goods were at their disposal.

In the letter, he did not state his reasons for leaving, other than that he had left for "reasons best known to himself."

The grocery store where he did business on the corner of Tenth and Main streets, was closed yesterday, by the Sheriff, to satisfy attachments issued from the Bourbon Circuit Court in favor of the Power Grocery Co., and of Geo. Alexander & Co., bankers.

It is to be regretted that Mr. McDermott has met with reverses and his many friends only hope that he may yet be able to adjust his business in a satisfactory manner and again come to the front. He was a young man well-liked by all and nothing but sympathy is expressed by his friends.

THE STRIKING MINERS.

Engineers, Firemen and Pumpmen May Be Called Out.

Prospect of a Continuance of Present Peace Condition Throughout the Coal Regions Are not Bright.

Wilkesbarre, Pa., May 22.—The three anthracite executive committees of the United Mine Workers of America, with their joint meeting Wednesday, decided to permit the engineers, firemen and pumpmen to remain at work, provided the coal companies grant them an eight hour day at present wages. If these demands are not granted by June 2, the men shall then suspend work. Although the instructions issued to the local unions do not specifically say that the men shall cease work on that date if the demand is not granted, they are so construed by the committeemen. This action was taken after two sessions had been held which consumed the entire day.

At present the engineers, firemen and pumpmen work ten hours a day. Some of the firemen work 12.

The action of the committees is not as drastic as was looked for. Under the instructions issued the protectors of the mines can grant the concessions, can remain at work no matter how long the strike of mine workers shall last. Some of the radical committeemen wanted them called out and kept out until all the mine workers were satisfied, but the conservative element was in the majority.

As some of the coal companies have declared that they will fill the places of this class of employees at any cost, if they are called out on strike, the prospect of a continuance of the present peaceful condition throughout the coal regions are not bright.

No other information was given out regarding the proceedings of the meeting. The three boards will again meet Thursday morning. It is said that nothing was done in regard to the matter of involving the bituminous miners in the present struggle, but the subject may come up Thursday.

There was no news from any part of the region Wednesday. Everything was extremely quiet.

WALLER, ALIAS HOWARD.

His Release From Custody Was Ordered By Gen. Wheaton.

Manila, May 22.—The release from custody of Waller, alias Howard, who was tried by court-martial on the charge of deserting to the enemy from a California regiment and sentenced to be hanged, has been ordered. Gen. Wheaton disapproved on the ground that the prisoner's identity was not indisputably established, and that further, whatever his offense, the government had condoned it by sending him into the field against the enemy after his arrest.

RELIEVED FROM DUTY.

Gen. Sumner Will Temporarily Command Gen. Wheaton's Department.

Manila, May 22.—Gen. Lloyd Wheaton goes on board the United States transport Sherman Thursday. Gen. Chaffee, in ordering Gen. Wheaton's relief from duty, said the department took the occasion to pay a warm tribute to Wheaton's splendid record, and invited the attention of all officers and soldiers to his conspicuous example of efficiency and devotion to duty. Gen. Sumner will temporarily command Wheaton's department pending presidential action.

SPANISH WAR DEAD.

The Memorial Shaft Erected at Arlington Unveiled.

Washington, May 22.—President Roosevelt Wednesday unveiled the memorial shaft erected at Arlington by the National Society of Colonial Dames, in memory of the veterans who fell in the recent struggle between Spain and the United States. Around the platform an immense crowd gathered, among whom were many men who saw service in Cuba, Porto Rico and the Philippines. The ceremonies were in charge of Maj. John R. Brooks, commander of the department of the east, the military establishment being represented by a battalion of engineers, a battalion of marines, light battery of the 4th artillery, two squadrons of the 2d cavalry, and over 500 veterans of the Spanish-American war. The services began with the playing of the "Dead March From Saul," followed by a surpliced choir singing "Onward, Christian Soldiers." Prayer was said by Bishop Satterlee and a Catholic priest, and the entire audience joined in singing the national hymn. Lieut. Gen. John M. Schofield, U. S. A., retired, then read the address of the president of the National society, Mrs. Justice V. R. Townsend, at the conclusion of which the shaft was unveiled amid the cheers of the thousands who had surrounded the stand.

As the shaft was unveiled the artillery fired the national salute, after which President Roosevelt delivered an address.

ALLEGED "PLAY FACTORY."

Government Officers Seized a Number of Theatrical Manuscripts.

Chicago, May 22.—Government officers seized a number of theatrical manuscripts Wednesday in the alleged "Play factory" of Alexander Byers, at 144 La Salle street. The manuscripts are said to have been used by Byers without authority from the owners. The raid on Byers' office followed the filing in the federal court of a bill for an injunction in which Byers and the Chicago Manuscript Co. are named as defendants. Emanuel Lederer and Carl Herrman, of New York, are the complainants.

It is alleged that Byers has been taking stenographic reports of many new plays and supplying the productions in full to managers at a low cost.

A SAD OCCURRENCE.

Wife of Corp. Snoko Died of Burns Received as Result of a Joke.

Junction City, Kan., May 22.—Mrs. W. G. Snoko, wife of Corp. Snoko, of the 9th artillery, and stationed at Ft. Riley, Kan., died at her home Wednesday of burns received as the result of a joke perpetrated by her husband. Mrs. Snoko had hidden in an outbuilding, and in a spirit of fun locked her husband out. Snoko poured some gasoline on the stone steps and lit it, thinking to frighten her. The flames were drawn in under the door and enveloped Mrs. Snoko, who died several hours' later in terrible agony. She was conscious to the last and exonerated her husband, insisting that his act was intended as a joke.

In Louisville he got \$150 and in other places he got smaller amounts. The man has not been located.

4th dam, by Pilot, Jr., sire of dams of Maud S. 2:08 3-4, Jay-Eye-See 2:06 1-4, etc.

WIGGINS is a very handsome horse, with the best feet and legs I ever saw. He was a very high-class race horse. He won five straight races at 2 years old without losing a heat, defeating all the cracks of the year 1895. He trotted the last end of a mile, over a slow track, in 1:5 1-2, and could have gone faster. While it is saying a great deal, I assert that he is siring as much and as uniform speed as any stallion in Kentucky standing at any price. He had only four colts as old as 3 years last season. Bessie Brown (was second at 2 years in 2:20 1-2) trotted a ¾ track in 2:15. Edna Earl, same track, in 2:23 1-2, half in 1:08. Rena Wise took a 3-year-old record of 2:21½, and Black Arthur trotted in 2:26 to cart. Wigwag, a 2-year-old, trotted a ¾ track in 2:28½ on 15th of June, and was sold for \$3,500. A yearling filly scarcely bridle-wise, trotted a mile to cart in 2:37½. They all trot.

FIFTY-SEVENTH CONGRESS.

Washington, May 16.—Senate—An extended speech by Mr. McLaurin (Miss.) in opposition to the pending Philippine government bill was a feature of Thursday's session of the senate. The Mississippi senator vigorously assailed the administration's policy in the Philippines. He deprecated the outrages perpetrated in the islands, whether they were committed by the Filipinos or by the Americans. The bill providing for the erection of a union railway station in Washington and the fortifications appropriation bill were passed.

House—The house was plunged into an exciting debate on Philippine affairs. Thus far the subject of alleged atrocities in the islands has engaged the attention of the senate alone and only occasional echoes have been heard in the house. But Thursday the reports of cruelty and outrages were rehearsed in the house with vehemence and bitterness. The naval bill was the order of the day, but it received scant attention after the allegations of Philippine outrages were presented. General debate on the naval bill closed at 4 o'clock and when the house adjourned the measure was being read for amendment.

Washington, May 17.—Senate—An effort was made by Mr. Lodge (Mass.) in the senate to induce the minority to fix a time when a vote might be taken on the Philippine government bill but Mr. Dubois (Ida.), speaking for the democratic side, did not desire to specify a date for the vote. Assurance was given that the minority was not seeking for delay, but wished simply that discussion should be exhausted before the vote was taken.

House—The house had another lively day of debate, Philippine atrocities and the Schley case coming in for considerable attention after the more exciting themes of debate came up.

Washington, May 20.—Senate—Only a brief time was devoted by the senate Monday to consideration of the Philippine government bill. Mr. Doliver (Ia.) supported the bill, which he said was one of the most important pieces of constructive legislation presented since the civil war. He insisted that the Philippine insurrection as a military proposition, was a thing of the past, and declared that in no circumstances would the United States relinquish the Philippines.

House—Before adjournment Monday the house passed the naval appropriation bill. The feature of the appropriation bill on the amendment offered by Mr. Roberts (Mass.) providing that three of the ships provided for in the bill, a battleship, cruiser and a gunboat, shall be built in government yards. Mr. Adams (Pa.) made a point of order against the amendment, which Mr. Sherman sustained, but on appeal by Mr. Roberts the chair was overruled and the amendment was agreed to. Under a suspension of the rules the bill for eight hour work on all government contracts was passed, also a bill authorizing the construction of a national sanitarium for disabled soldiers at Hot Springs, S. D.

Washington, May 21.—Senate—The subject of the concentration of the inhabitants in the Philippines into camps was a leading topic of the discussion of the Philippine bill in the senate Tuesday.

House—For a third time within a week the house has instructed its conferees on matters of dispute between the senate and house Tuesday. The instructions were given on amendments in the army appropriation bill before the conferees had even considered the matters in controversy. The motion to instruct was made by Mr. Cannon (Ill.), chairman of the appropriations committee. It was resisted by Mr. Hull, chairman of the committee on military affairs, and the somewhat spirited debate which followed developed antagonism between the committees. The amendment at which Mr. Cannon aimed was that which increased the appropriation for military posts from three to four million dollars. A resolution offered by Mr. Hitt, chairman of the foreign affairs committee, felicitating Cuba on her independence was passed unanimously. A bill amending the passport law was passed. The remainder of the day was devoted to private claims bills.

Washington, May 22.—Senate—Before the senate resumed consideration of the Philippine bill it adopted a resolution congratulating the republic of Cuba upon its entry into the family of independent nations, and the secretary of state was directed to transmit the resolution to the president of the republic. The senate also ordered the Associated Press account of the ceremonies of the transfer from the United States to the Cuban authorities printed in the Congressional Record, and as a public document.

House—The house began consideration of the immigration bill Wednesday. The principal speech was made by Mr. Shattuck (O.), chairman of the committee on immigration. He was especially severe in his condemnation of the manner in which immigrants are introduced through Canada and by Canadian railway and steamship companies. Mr. Underwood (Ala.) gave notice of an amendment to provide an educational test and much of the discussion during the day was upon this subject. The house earlier in the day settled three contested election cases in favor of sitting members and passed a number of bills of minor importance.

DOMESTIC ABILITY.

The Girl from Finland Had a Unique Specialty in the Line of Housework.

An aristocratic East Superior street woman, who has had the usual number of failures in the way of domesticities, having tried nearly every nationality, heard the other day that a number of girls had come from Finland to seek employment as servants and that they were highly recommended as strong, intelligent, capable and generally excellent help, relates the Duluth News-Tribune.

With high hope the housekeeper hid her to the office where the paragon was on exhibition, and was soon brought face to face with a brawny specimen, who could not speak a word of English. With the aid of an interpreter the following conversation took place:

"Can you cook?"
"Oh, no."
"Can you wash and iron?"
"No."
"Can you sweep and dust or clean house?"
"I have never done anything like that."
"For goodness sake," exclaimed the astonished matron to the interpreter, "ask her what she can do."
With calmness and complacency the reply came back: "I can milk reindeers!"

HE LOOKED DIFFERENT.

The Barber Had Shaved Him Before, But Failed to Recognize His Healed Face.

A Ninth street barber owns up that the following experience was his own less than a month ago. An actor from a neighboring theater dropped in one afternoon to be shaved, and seemed disinclined to talk. The barber, says the Philadelphia Times, is a believer in the theory of his tribe that conversation makes the process of shaving easier for the shaver—that the time seems to pass more quickly if the customer can be interested in this or that topic for the few necessary minutes. He tried the actor on the weather, the beef trust, the asphalt scandal and the new filtration plant without success. Then, just to keep things going, he asked:

"You have never been shaved in here before, have you, sir?"
"Oh, yes," replied the actor. "I was in here once when we played across the street about 18 months ago—in the beginning of last season, it was."
"Strange that I don't remember your face," commented the barber.
"Well, you see," came from his victim, "my face has healed up since then."

HEADACHE, BACKACHE, DIZZINESS

(PE-RU-NA CURES PELVIC CATARRH.)

"I am perfectly well," says Mrs. Martin, of Brooklyn. "Pe-ru-na cured me."

MRS. ANNA MARTIN

Mrs. Anna Martin, 47 Hoyt street, Brooklyn, N. Y., writes:

"Pe-ru-na did so much for me that I feel it my duty to recommend it to others who may be similarly afflicted. About a year ago my health was completely broken down, had backache, dizziness and irregularities, and life seemed dark indeed. We had used Pe-ru-na in our home as a tonic and for colds and catarrh and I decided to try it for my trouble. In less than three months I became regular, my pains had entirely disappeared, and I am now perfectly well."—Mrs. Anna Martin.

Miss Marie Johnson, 11 Columbia, East, Detroit, Mich., is Worthy Vice Templar in Hope Lodge No. 6, Independent Order Good Templars. Miss Johnson, as so many other women also have done, found in Pe-ru-na a specific for a severe case of female weakness. She writes:

"I want to do what I can to let the whole world know what a grand medicine Pe-ru-na is. For eleven years I suffered with female troubles and complications arising therefrom. Doctors failed to cure me, and I despaired of being helped. Pe-ru-na cured me in three short months. I can hardly believe it myself, but it is a blessed fact. I am perfectly well now, and have not had an ache or pain for months. I want my suffering sisters to know what Pe-ru-na has done for me."—Miss Marie Johnson.

Miss Ruth Emerson, 72 Sycamore st., Buffalo, N. Y., writes: "I suffered for two years with irregular and painful menstruation, and Pe-ru-na cured me within six weeks. I cannot tell you how grateful I feel. Any agency which brings health and strength to

the afflicted is always a welcome friend, and to-day the market is so filled with useless and injurious medicines that it is a pleasure to know of so reliable a remedy as you place before the public."—Miss Ruth Emerson.

It is no longer a question as to whether Pe-ru-na can be relied on to cure all such cases. During the many years in which Pe-ru-na has been put to test in all forms and stages of acute and chronic catarrh no one year has put this remedy to greater test than the past year.

Pe-ru-na is the acknowledged catarrh remedy of the age. Dr. Hartman, the compounder of Pe-ru-na, has written a book on the phases of catarrh peculiar to women, entitled, "Health and Beauty." It will be sent free to any address by The Pe-ru-na Medicine Co., Columbus, O.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the "c" disease from the system. It is not a cure all but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at W. T. Brooks'. Get Green's Special Almanac.

THE BEST BLOOD TONIC.

LEXINGTON, KY., April 4th, '02.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: About twelve years ago my health was very bad, caused by the poor condition of my blood. I saw S. S. S. advertised, and after taking it six months felt like an entirely new man. I have not been sick a day since and I attribute it to the thorough work done by S. S. S. I believe S. S. S. to be the best blood tonic on the market. Yours truly,
No. 54 Maryland Avenue. C. J. STRONG.

THE POISON AFFECTED HIS WHOLE SYSTEM.

SHELBYVILLE, KY., April 2nd, 1902.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: I wish to inform you of a cure S. S. S. made for me. About four years ago I was saving a limb off a tree and contracted Poison Oak. It affected my whole body, breaking out in blotches continually. I tried several medicines; my physician gave me an ointment to use, but I got no relief. I used S. S. S. for about four months, taking in all about twelve bottles, and am entirely cured. S. S. S., in addition to curing me of Poison Oak, gave me a good appetite and built my system up generally, until now I feel perfectly well. I never tried a tonic that was so pleasant to take and that so promptly and thoroughly accomplished good results. I will be thankful if this letter is the means of helping others to decide on a sure cure for blood trouble. Yours truly,

CURED OF ACUTE RHEUMATISM.

BOWLING GREEN, KY.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: About a year ago I was attacked by acute Rheumatism in my shoulders, arms and on the legs below the knee. I could not raise my arm to comb my hair. Doctors prescribed for me for over two months without giving me any relief. I saw S. S. S. advertised and decided to try it. Immediately I commenced its use I felt better, and remarked to my

mother that I was glad I had at last found some relief. I continued its use and am entirely well. I will always feel deeply interested in the success of S. S. S. since it did me so much good. Yours truly,
311 12th St. MRS. ALICE HORTON.

DOCTORS SAID IT WOULD COST \$100.

PADUCAH, KY., March 17, 1902.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: Some two years ago I suffered a great deal, caused on account of bad blood; small rash or pimples broke out over my body and kept getting worse day by day for over a year. A doctor told me it would cost one hundred dollars to cure me. I could not spare the amount at that time, and seeing S. S. S. advertised in the papers, and having also heard it had cured several people in this city, concluded to try it. After using the medicine for some time, taking in all six or seven bottles, I was entirely cured, and am very glad to recommend it to all needing a good blood medicine. Yours respectfully,
1020 Clay St. EDW. C. LONG.

BOILS THE RESULT OF BAD BLOOD.

LOUISVILLE, KY., March 25, 1902.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: For over fifteen years I have suffered more or less from impure blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all boils disappeared, and I have not been troubled any since. I feel deeply indebted to S. S. S. for the present excellent health I am enjoying, as I have not felt so well in twenty years. You have certainly placed me under many obligations, and I must say that I will always have great faith in S. S. S. And I would say to all those in need of a reliable blood cure to insist on getting S. S. S.; don't let your druggist or doctor persuade you to try something "just as good," for there is no such thing to be had. Yours truly,
114 W. Jefferson St. GEO. G. FERTIG.

AN INVALUABLE SPRING MEDICINE.

LOUISVILLE, KY., April 1st, 1902.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: For the past twenty-three years I have used S. S. S. in my family as a general spring tonic. I have also used it personally for Rheumatism and have always got prompt relief. I have bought many bottles of S. S. S. to give to those needing a good medicine and who were unable to buy it themselves. There is nothing that I can say too highly in favor of S. S. S., and will continue both to keep it in the house and recommend it to any whom I think need a sure cure for impure blood arising from any cause. Yours very truly,
1917 Preston St. JAS. ANDERSON.

ANKLES AND FEET BADLY SWOLLEN.

LOUISVILLE, KY., March 27, 1902.
The Swift Specific Co., Atlanta, Ga.
GENTLEMEN: I am glad to say that S. S. S. has cured me of Rheumatism. About two years ago I suffered from Rheumatism in my knees and feet, my ankles swelling so that I could not put on my shoes. This continued for several months, during which time I was applying liniments and going by my physician's directions, but derived no benefit. I was told of S. S. S. and tried it. I immediately got relief, and in six months was entirely well. I have recommended S. S. S. to several and shall always do so, for I am sure no other medicine would have cured me as S. S. S. did. Yours truly,
No. 2108 Floyd St. D. J. DUANE.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a case study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use. "SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and is also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD. CATARRH when neglected often leads to CONSUMPTION. "SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once and write full particulars as to your condition and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE. Sent postpaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. H 612, EDWIN B. GILES & COMPANY, 230 and 2332 Market Street, Philadelphia.

Makes Weak Women Strong.

I have taken your Remick's Pepsin Blood Tonic. I know it is the best Tonic ever made. It will make every weak woman strong. I cannot praise it enough, writes Mrs. O. D. Pickering, Olney, Ill. For sale by W. T. Brooks.

When both sides find fault, you have probably meted out justice.

Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Greens August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at W. T. Brooks'. Get Green's Special Almanac.

Good Advice.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than 75 per cent. of the people in the United States are afflicted with these two diseases and their effects; such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Special Almanac. W. T. Brooks.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two billion bottles sold annually. Boschee's German Syrup was introduced in the United States in 1898, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price, 75c.
